Hi Lorraine

Just checking if you have any specific discharge planning tools you could send through/recommend just so I can consider?

Also, what is expected with me completing my PADS? I'm a little unsure how I will get it done in time and what supports are in place for me to reach any short term goals with BAC closing? I understand it's important to do from a compliance point of view just wanted to check as didn't get to talk it through last week.

Thanks
