

Panel Member Interview Notes – Tips:

- The purpose of taking notes when assessing applicants is to assist the panel member in discussing with the other panel members who they believe to be the successful applicant and why.
- These notes and subsequent discussion should be used to draft the summary statement on each shortlisted applicant within the selection report.
- The summary statement is a collective statement from all panel members on each applicant.
- As the legislative requirement for recruitment and selection is that the process “is able to be reviewed”, the summary statement (or comparative statement where more than one applicant exists) must succinctly indicate the panel’s assessment of the applicant against the role’s key attributes, and whether the panel considers them meritorious, suitable or not suitable for an order of merit, and on what basis.
- Provided the reader of the summary statement is to be able to clearly differentiate one applicant from the other, and see the logic in the final outcome, this will meet the test of “able to be reviewed”.
- Your summary statement must indicate that all available information has been considered (ie. combined information, eg. application, interview & referee report – not just interview alone).
- Documentation of a selection decision must clearly explain the decision-making process with reference to the basis for assessment contained in the role description. The final summary statement on each applicant that is recorded within the selection report successfully meets this requirement. Therefore, as panel member’s notes will assist in drafting a final summary statement on each applicant, the notes will no longer be required thereafter.
- Do not discard individual panel member’s notes unless you are certain that the final summary statement on each applicant is of a high standard.
- It is suggested that panel schedule enough time between interviews to draft the summary statement of each interviewed. If you do this when your whole panel is present, it is easier, quicker, and more valid and reliable than relying on your recall and interview notes several days later.
- It is not sufficient for the summary statement to consist of scores alone.
- “Scoring” is not required or recommended. This mathematical approach to recruitment and selection is time consuming and not effective. Consider why you have allocated a certain score, and instead of documenting the number/score, document the rationale for the number/score. If a selection decision is challenged, the panel will be required to explain the scoring anyway – better to document the *rationale* (rather than the number/score) in the first instance while the applicant is still fresh in your mind.

5. You are on a medication round in a prison when you find yourself being yelled at by a client. Whilst the person is abusive, they are also refusing to take medication. Can you explain what your actions would be in this instance.

	<p>Safety – Self</p> <p>Safety – Environment – ensure med cart can't be stolen</p> <ul style="list-style-type: none"> - other prisoners safe - officers and yourself safe <p>Safety – Client/what is the medication</p> <p>Team approach/discuss/notify/document/review/</p> <p>Communication – de escalation/ ABM</p> <p>Report :</p> <ul style="list-style-type: none"> - senior nurse - doctor <p>Does anyone else need to know external to QH: QCS safety and security</p> <p>Documentation – medical chart</p> <p>Documentation – medication chart</p> <p>Documentation - Handover</p>
