Subject:	Housing Information
Attachments:	d2dl.pdf

Hi Megin,

#### Please find below my recommendations for urgent housing options for your young women.

Anglican Women's Hostel	18+ years	
Bahloo Women's Shelter	16-25 years	
Hannah's House	13-17yrs	

Caboolture Youth Shelter	14-21 years	
Chameleon Housing	16-17 years	
Ipswich Independent	16-21 years	
Nathanael House	15-17 years	
Orana Youth Shelter	16-18 years	
Youth Emergency Services	15-18 years	

None of these options will likely be ideally suited for your young needs as they are homelessness services not mental health services and so arent necessarily well equipped to adequately support chronic, high needs mental health. They are all crisis shelters and so have a worker on 24 hrs and can accommodate for around 3 months; however there are no garuntees that long term housing will be sourced in that timeframe.

I spoke with my CEO about your situation and she has suggested that the most appropriate action for you take would be to approach some fellow government departments. So the first thing you should do is contact the Dept. Housing and Public Works for housing for the who need such urgently.

 For support, she suggested that for your
 you approach child safety services and for

 your 18+
 and request appropriate support packages for them, as it is

 unlikely that any homelessness service will have the resources to provide intensive enough support

 for those
 (i.e. 24 hr, very long term, etc). These government bodies should be able to

 provide the appropriate 24 hr care your
 need.

With regards to your other young people who may be looking for other support; here is our website and attached is our activities schedule for October.

My CEO also suggested that you contact Partners In Recovery at the Brisbane North or South Medicare Locals and request their support to source appropriate care packages for your young women. I don't know too much about them, sorry, but I do know that they don't provide the services but assist in sourcing such.

Also, for ongoing psychological treatment Headspace is probably the best placed service to provide psychological care

Please let me know if there is any further information I can provide you with!

Kind Regards,

Erin Field Housing Support Worker

Subject:	Support Services for Barrett Adolescent Centre clients

Dear Karen,

We have received your contact details through the Youth at Risk Initiative (YARI)/Youth Support Co-ordinator Initiative (YSCI) from the Department of Communities.

Barrett Adolescent Centre is a service that provides medium term, recovery-oriented treatment and rehabilitation for young people aged 13-18 years with severe and persistent mental health problems, which significantly interfere with social, emotional, behavioural and psychological functioning and development. It is in the process of being closed in January 2014, therefore we are transitioning our clients to suitable community services.

We are interested in connecting our young people with services that provide life skill development, vocational/educational supports, community integration and age-appropriate leisure programs. The majority of our young people experience varying levels of anxiety and have been disengaged with their local communities for a period of time while they have been receiving inpatient mental health care, including attending an alternate education program.

Could you please contact Vanessa Clavworth (Clinical Nurse Consultant) or Megan Hayes (Occupational Therapist) on or via email with any support programs you are able to offer or to discuss further. We hope you can appreciate the time sensitive nature of this matter and the vulnerability of the young people involved.

Kind regards

Megan Hayes

It is in the process of being closed in January 2014, therefore we are transitioning our clients to suitable community services.

We are interested in connecting our young people and/or their families with services that provide life skill development, vocational/educational supports, community integration and age-appropriate leisure programs. The majority of our young people experience varying levels of anxiety and have been disengaged with their local communities for a period of time while they have been receiving inpatient mental health care, including attending an alternate education program.

Could you please contact Vanessa Clayworth (Clinical Nurse Consultant) or Megan Hayes (Occupational Therapist) on or via email with any support programs you are able to offer or to discuss further. We hope you can appreciate the time sensitive nature of this matter and the vulnerability of the young people involved.

Kind regards

Hi Megan,

Thank-you for the email, Nextt is very interested to do whatever we can to assist with the successful transition of the young people you have mentioned into the community.

Based on what you have specified within your email it sounds like our LIFE (Life Independence for Everyone) Program would be most relevant. I've attached a brochure for your reference.

Can you confirm if the young people will have individual funding that will be available to support them?

Please do not hesitate to give me a call on to discuss this further.

Kind Regards,

## **Cassie Causton**

Program Manager Mental Health

Subject: Support services for Barrett Adolescent Centre clients

Dear Daryl,

We have received your contact details from the service integration officer for Metro South.

Barrett Adolescent Centre is a service that provides medium term, recovery-oriented treatment and rehabilitation for young people aged 13-18 years with severe and persistent mental health problems, which significantly interfere with social, emotional, behavioural and psychological functioning and development. It is in the process of being closed in January 2014, therefore we are transitioning our clients to suitable community services.

We are interested in connecting our young people with services that provide life skill development, vocational/educational supports, community integration and age-appropriate leisure programs. The majority of our young people experience varying levels of anxiety and have been disengaged with their local communities for a period of time while they have been receiving inpatient mental health care, including attending an alternate education program.

Could you please contact Vanessa Clavworth (Clinical Nurse Consultant) or Megan Hayes (Occupational Therapist) on or via email with any support programs you are able to offer or to discuss further. We hope you can appreciate the time sensitive nature of this matter and the vulnerability of the young people involved.

Kind regards

Hi Megan

Thanks for the comprehensive information concerning your enquiry relating to services for young people leaving the Barrett Adolescent Centre and particularly in relation to

Unfortunately, currently only provides services to young adults (in its Transitional Residential Community) and to adults with moderate to severe mental illness in a range of programs in the South East corner of Queensland. Although is interested in moving into providing services to young people for the most part we rely on government funding of our services.

So although has considerable expertise in providing services to people with severe and persistent mental illness with complex needs unless funding was available to provide support to these young people it is unlikely we can help you very much.

However, I am still happy to have a conversation if think that might be helpful, my contact numbers are below.

Kind regards

Larry

Good Morning Megan,

Thanks for your email! It was great to come and meet with everyone, I only wish our circumstances were different so we could offer some of the young people matches.  $\overline{\otimes}$ 

Anyhow, in answer to your question regarding I am the best contact for that as I'm currently responsible for implementing the program in that area. One of the things I forgot the mention yesterday, the funding received for comes with a little bit of bureaucratic restraint;

90% of the matches made in this area will be aged 7-12. This is not to say we cannot match some older young people.

I hope this helps and please don't hesitate to get in touch should you need any further information.

Kind Regards,

I just wanted to flag that I have faxed had outlined in emails below to If you require any additional information please let myself/Vanessa know so we can assist. Kind regards

Megan Hayes Occupational Therapist Barrett Adolescent Centre The Park Centre for Mental Health

Mon, Tues (Alt), Wed

>>> Vanessa Clayworth 10/28/2013 7:47 am >>> Hi Gabbey,

I have forwarded the referral forms onto the Social Worker to complete.

Thank you for speaking with your colleagues re the current situation for Adolescents at Barrett. The unit will be closing end of January 2014. By December 2013 I hope to have community supports in place for all adolescents.

The remainder of adolescents do not require supported accommodation as they are returning to their families. They do however need support; example mentors.

If you could collaborate with other housing services that would be greatly appreciated. There is opportunity for brokerage in order to best meet the needs of the Adolescents.

Thank you for your time,

Vanessa

>>> Gabbey Prosser Hi Vanessa, 10/24/2013 12:12 pm >>>

Please find attached our referral form. Feel free to fill out one for each client you need accommodation for and either scan and email them back to me or fax them back to me via:

I've just had a chat to other workers in my office to see if they can come up with any creative solutions that might help your service. One suggestion was whether you could send me an email

outlining the situation so we can forward it out through our housing network to see if we can come up with a collaborative response. If this isn't appropriate though that is completely fine but if this will help I am happy to do that.

I also rang a mental health housing service on the Coast here called Graceville (wasn't sure if you had already talked to them but they are just someone I thought of). Clients need to be 18 years of age though to be referred there. If you happen to have any clients who are currently 18 or about to turn 18 you might be able to try Graceville (<u>http://lccqld.org.au/community-services-disability-support-nambour</u>). They said the referral needs to come from though so clients would already need to be linked in with for this to happen.

Would love to assist you in any way we can to try and get some positive housing options for these kiddo's.

Cheers,

Gabbey Prosser Integrated Family and Youth Service

Subject:	<b>RE: IFYS Transitional Housing</b>

Hi Megan,

Thanks so much for faxing ! I have got them now, I've also forwarded out the information from Vanessa to our organisation as well as the Sunshine Coast Housing Network to see if anyone has any solutions.

If we have anything pop up we will definitely be in touch!

Talk soon,

Gabbev Prosser

>>> Vanessa Clayworth 10/28/2013 7:47 am >>> Hi Gabbey,

I have forwarded the referral forms onto the Social Worker to complete.

Thank you for speaking with your colleagues re the current situation for Adolescents at Barrett. The unit will be closing end of January 2014. By December 2013 I hope to have community supports in place for all adolescents.

The remainder of adolescents do not require supported accommodation as they are returning to their families. They do however need support; example mentors.

If you could collaborate with other housing services that would be greatly appreciated. There is opportunity for brokerage in order to best meet the needs of the Adolescents.

Thank you for your time,

Vanessa

>>> Gabbey Prosser Hi Vanessa, 10/24/2013 12:12 pm >>>

Please find attached our referral form. Feel free to fill out one for each client you need accommodation for and either scan and email them back to me or fax them back to me via

I've just had a chat to other workers in my office to see if they can come up with any creative solutions that might help your service. One suggestion was whether you could send me an email outlining the situation so we can forward it out through our housing network to see if we can come up with a collaborative response. If this isn't appropriate though that is completely fine but if this will help I am happy to do that.

I also rang a mental health housing service on the Coast here called Graceville (wasn't sure if you had already talked to them but they are just someone I thought of). Clients need to be 18 years of age though to be referred there. If you happen to have any clients who are currently 18 or about to turn 18 you might be able to try Graceville (<u>http://lccqld.org.au/community-services-disability-support-nambour</u>). They said the referral needs to come from though so clients would already need to be linked in with for this to happen.

Would love to assist you in any way we can to try and get some positive housing options for these kiddo's.

Cheers,

Gabbey Prosser

Subject: RE: Support services for Barrett Adolescent Centre clients

Hi Narelle and team

We were just following up if you provided any services that may be relevant to our young people and/or their families as they transition from Barrett Adolescent Centre. We are sorry if you attempted to contact us and we were unavailable.

As per our email below Barrett Adolescent Centre is a service that provides medium term, recoveryoriented treatment and rehabilitation for young people aged 13-18 years with severe and persistent mental health problems, which significantly interfere with social, emotional, behavioural and psychological functioning and development. It is in the process of being closed in January 2014, therefore we are transitioning our clients to suitable community services.

We are interested in connecting our young people with services that provide life skill development, vocational/educational supports, community integration and age-appropriate leisure programs. The majority of our young people experience varying levels of anxiety and have been disengaged with their local communities for a period of time while they have been receiving inpatient mental health care, including attending an alternate education program.

Could you please contact Vanessa Clayworth (Clinical Nurse Consultant) or Megan Hayes (Occupational Therapist) on or via email with any support programs you are able to offer or to discuss further.

Thankyou

Megan Hayes

Sincere apologies Megan

I was on leave when you sent your original email and to be honest I know there are two weeks' worth of emails I have yet had time to get back to as we are in the middle of a full internal office renovation I have moved desks 3 times in the last 2 weeks, so I appreciate you following up with me.

I was disappointed to hear about your closure when that news came out,

I have Cc'd our Youth intake Officer into this email as she may be able to assist, at least initially. I am happy to discuss with you further if required, however I will get Leanne to contact you to discuss your request below.

Kind Regards

Amanda Margerison | Service Manager

>>> Megan Hayes 10/23/2013 9:03 am >>> Dear Amanda,

We have received your contact details through the Youth at Risk Initiative (YARI)/Youth Support Coordinator Initiative (YSCI) from the Department of Communities.

Barrett Adolescent Centre is a service that provides medium term, recovery-oriented treatment and rehabilitation for young people aged 13-18 years with severe and persistent mental health problems, which significantly interfere with social, emotional, behavioural and psychological functioning and development. It is in the process of being closed in January 2014, therefore we are transitioning our clients to suitable community services.

We are interested in connecting our young people with services that provide life skill development, vocational/educational supports, community integration and age-appropriate leisure programs. The majority of our young people experience varying levels of anxiety and have been disengaged with their local communities for a period of time while they have been receiving inpatient mental health care, including attending an alternate education program.

Could you please contact Vanessa Clavworth (Clinical Nurse Consultant) or Megan Hayes (Occupational Therapist) on or via email with any support programs you are able to offer or to discuss further. We hope you can appreciate the time sensitive nature of this matter and the vulnerability of the young people involved.

Kind regards

Megan Hayes

Hi Megan,

I'll bear this in mind in case an opportunity presents itself.

It kind of comes down to politics and the conditions of the funds allocated for the project. If were in Brisbane and we had some funding a match would be significantly more likely.

Sorry to provide you with a lot of if's but's and maybe's but have to be realistic so as not to raise any hopes unnecessarily.

Apologies,

Good Morning Megan,

Thanks for your email! It was great to come and meet with everyone, I only wish our circumstances were different so we could offer some of the young people matches. ③

Anyhow, in answer to your question regarding , I am the best contact for that as I'm currently responsible for implementing the program in that area. One of the things I forgot the mention yesterday, the funding received for comes with a little bit of bureaucratic restraint;

90% of the matches made in this area will be aged 7-12. This is not to say we cannot match some older young people.

I hope this helps and please don't hesitate to get in touch should you need any further information.

Kind Regards,

From: Megan Hayes Sent: Tuesday, 29 October 2013 8:12 AM To: Subject: contact
