

West Moreton Hospital and Health Service

Expert Clinical Reference Group Recommendations
Barrett Adolescent Strategy
July 2013

Adolescent Extended Treatment and Rehabilitation Services (AETRS) Recommendations Submitted to the West Moreton Hospital and Health Board

1. Broader consultation and formal planning processes are essential in guiding the next steps required for service development, acknowledging that services need to align with the National Mental Health Service Planning Framework

ECRG Recommendations	Planning Group Recommendations
a) Further work will be required at a statewide level to translate these concepts into a model of service and to develop implementation and funding plans.	Accept with the following considerations. The responsibility for this task at a statewide level sits with the Mental Health Alcohol and Other Drugs Branch and the Children's Health Services. A collaborative partnership is proposed.
b) Formal planning including consultation with stakeholder groups will be required.	Accept with the following considerations. This body of work should be incorporated into the statewide planning and implementation process (as above).

2. Inpatient extended treatment and rehabilitation care (Tier 3) is an essential service component

ECRG Recommendation	Planning Group Recommendation
a) A Tier 3 service should be prioritised to provide extended treatment and rehabilitation for adolescents with severe and persistent mental illness.	Accept with the following considerations. Further work is needed to detail the service model for a Tier 3. Models involving a statewide, clinical bed-based service (such as the Barrett Adolescent Centre) are not considered contemporary within the National Mental Health Service Planning Framework (<i>in draft</i>). However, there are alternative bed-based models involving clinical and non-clinical service components (e.g., Y-PARC in Victoria) that can be developed in

ECRG Recommendation	Planning Group Recommendation
	<p>Queensland to meet the requirement of this recommendation.</p> <p>Contestability reforms in Queensland may allow for this service component to be provider agnostic.</p>

3. Interim service provision if BAC closes and Tier 3 is not available is associated with risk

ECRG Recommendations	Planning Group Recommendations
<p>a) Safe, high quality service provision for adolescents requiring extended treatment and rehabilitation requires a Tier 3 service alternative to be available in a timely manner if BAC is closed.</p>	<p>Accept.</p>
<p>b) Interim service provision for current and 'wait list' consumers of BAC while Tier 3 service options are established must prioritise the needs of each of these individuals and their families/carers. 'Wrap-around care' for each individual will be essential.</p>	<p>Accept with the following considerations.</p> <p>While this may be a complex process for some consumers and their individual needs, it was noted that this course of action could start immediately, and that it was feasible. The potential to utilise current BAC operational funds (temporarily) to 'wrap-around' each consumer's return to their local community was noted as a significant benefit.</p> <p>The relevant local community should play a lead role in the discharge of the consumer from BAC and their return to home. The local services need to be consulted around their ability to provide 'wrap-around' care.</p>
<p>c) BAC staff (clinical and educational) must receive individual care and case management if BAC closes, and their specialist skill and knowledge must be recognised and maintained.</p>	<p>Accept.</p> <p>The ECRG and the Planning Group strongly supported this recommendation.</p>

4. Duration of treatment

ECRG Recommendation	Planning Group Recommendation
<p>a) 'Up to 12 months' has been identified by the ECRG as a reasonable duration of treatment, but it was noted that this depends on the availability of effective step-down services and a suitable community residence for the young person. It is important to note that like all mental health service provision, there will be a range in the duration of admission.</p>	<p>Accept with the following considerations.</p> <p>This issue requires further deliberation within the statewide planning process.</p> <p>The duration of treatment needs some parameters to be set, however, this is primarily a clinical issue that is considered on a case-by-case basis by the treating team and the consumer.</p>

5. Education resource essential: on-site school for Tiers 2 and 3

ECRG Recommendations	Planning Group Recommendations
<p>a) Access to on-site schooling (including suitably qualified educators), is considered essential for Tiers 2 (day programs) and 3. It is the position of the ECRG that a Band 7 Specific Purpose School (provided by Department of Education, Training and Employment) is required for a Tier 3 service.</p>	<p>Accept with the following considerations.</p> <p>The Planning Group recommends removing "<i>Band 7</i>" from the ECRG recommendation. All educational services need to be evaluated by Department of Education, Training and Employment (DETE) on a case-by-case basis, taking into consideration service model, location, student numbers and complexity.</p> <p>The Planning Group supports the statement that educational resources are essential to adolescent extended treatment and rehabilitation services.</p> <p>The Planning Group recommends consultation with DETE once a statewide model is finalised.</p>

ECRG Recommendations	Planning Group Recommendations
<p>b) As an aside, consideration should also be given to the establishment of a multi-site, statewide education service for children/adolescents in acute units (hub and spoke model).</p>	<p>Accept with the following consideration.</p> <p>The Planning Group recommends this statement should be changed to read as:</p> <p>Strong consideration should be given to the establishment of a multi-site, statewide education service for children/adolescents in acute units (hub and spoke model).</p>

6. Residential Service: Important for governance to be with CYMHS; capacity and capability requires further consideration

ECRG Recommendations	Planning Group Recommendations
<p>a) It is considered vital that further consultation and planning is conducted on the best service model for adolescent non-government/private residential and therapeutic services in community mental health. A pilot site is essential.</p>	<p>Accept with the following consideration.</p> <p>Note that this service could be provider agnostic.</p>
<p>b) Governance should remain with the local CYMHS or treating mental health team.</p>	<p>Accept.</p>
<p>c) It is essential that residential services are staffed adequately and that they have clear service and consumer outcome targets.</p>	<p>Accept.</p>

7. Equitable access to AETRS for all adolescents and families is high priority; need to enhance service provision in North Queensland (and regional areas)

ECRG Recommendations	Planning Group Recommendations
<p>a) Local service provision to North Queensland should be addressed immediately by ensuring a full range of CYMHS services are available in [REDACTED] including a residential community-based service.</p>	<p>Accept.</p>
<p>b) If a decision is made to close BAC, this should not be finalised before the range of service options in [REDACTED] are opened and available to consumers and their families/carers.</p>	<p>Accept.</p>
