Hi everyone,

Please find below some positive comments from the [REDACTED] team about their impressions of [REDACTED] and [REDACTED] transformation. Despite the Barrett challenges during this year and [REDACTED] fluctuating high acuity, the impact of this extended treatment focus has had a dramatic change for this [REDACTED] - the results (pre-Barrett vs post-Barrett) are witnessed by [REDACTED] staff as positively remarkable.

The registrar wanted us to know that they appreciate what we have done for [REDACTED]

[REDACTED] was sad on arrival to the [REDACTED] but has been containing it reasonably well.

All the best,
Sue

Thanks so much for your help.

As I said by phone yesterday, I have never met [REDACTED] before [REDACTED] current admission. The staff here that know [REDACTED] "pre-Barrett" have all commented on how different [REDACTED] is and almost a different [REDACTED]. As such I thought (at risk of seeming impertinent) I would extend my compliments to you all out there for what you have achieved and the difference you have made to [REDACTED]. In the current climate, I thought a bouquet rather than a perceived brickbat might be helpful.

Cheers

Hello again,

I'm sorry but our OTs were not able to progress far with an adaptive assessment on [REDACTED] Many attempts were made but [REDACTED] was too unsettled. Our OT Kimmy (Kim) Hoang is happy to talk with anyone there if you need.

Attached is the communication assessment and some other miscellaneous notes for your records including various management plans, Xray report, ED presentations, consumer forms, MHRT report and school reports. The initial assessment report is in CIMHA. I will post to Varian the therapy booklet that was previously used in RBH. We were not able to use this in the end due to changes in therapists.

Hope this is of some help. Let me know if anything else is needed.

Kind regards,
Sue
