Hi all

I've just edited the "skills development" element of this checklist to try and simplify some of the aspects we would need to consider as part of supporting the adolescents with transition. Hope this makes sense.

Thanks

Hi Megan and Carol,

Here is the checklist/ guide we were working on. Thanks for collaborating on this. I added a few more of your suggestions.

Feel free to look and work on it further if you have other ideas; or let me know. I will use some of these headers in the Case Review form for Case Conference that we will model next Monday.

If there is anything we've missed, feel free to add (that includes those CCd above - thanks).

Thanks,
Sue
